## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 5/11/06 has been entered. Claim 1 has been amended. Claims 1-12 remain pending in the application and have been fully considered by the examiner.

### ***Terminal Disclaimer***

2. The terminal disclaimer filed on 6/21/06 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of U.S. Patents 7,039,920, 7,043,736, and 7,062,771, has been reviewed and is accepted. The terminal disclaimers has been recorded.

## **EXAMINER'S AMENDMENT**

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mary Lou Wakimura, Reg. No. 31,804, on 6/21/06.

Please amend claim 1 as follows:

In the claims:

Claim 1 (Currently Amended): In line 17, after "global definition" add --of the emergent model--. In line 23, after "global definition" add --of the emergent model--.

--End Examiner's Amendment

*Allowable Subject Matter*

4. Claims 1-12 are allowed.
5. The following is an examiner's statement of reasons for allowance: The cited prior art taken alone or in combination fail to teach, as suggested in Applicant's submission filed 5/11/06 (see page 6), in combination with the other claimed limitations, independently publishing and subscribing to inputs and/or outputs of data objects and/or function objects to create a network, and analyzing and displaying the network of linked inputs and/or outputs, wherein the network of linked inputs and/or outputs is created in a manner free of a central coordinating computing device and in a manner free of a predefined or global definition of an emergent model. These limitations are present in independent claim 1. The distinctions provided by the independent claims apply equally to all dependent claims. Thus all pending claims 1-12 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
